Abstract of GB1030993

1,030,993. Milling-cutters. DEREFA ETABLISSEMENT POUR LE DEVELOPPEMENT, RECHERCHES ET FABRICATIONS INDUSTRIELLES. Jan. 29, 1963 [May 11, 1962], No. 3601/63. Heading B3K. A milling cutter comprises blades distributed angularly around a body, the distribution following a sinusoidal law. The arrangement reduces vibration by avoiding resonance. More than one group of teeth may be provided.
